Kerry followed up the below message with an email asking what she should be doing with these emails. She says that she is being inundated with form letters of this nature. She has received over 50 in the last 2 hours.

Carter W. Jessop

Hi Carter,

Are you still the lead reviewer on the Rosemont Copper EIS? If so, the following is an example of a form e-mail we have been receiving on the Rosemont Copper project in the Region 9 Information Mailbox. We have received 5 of these in the past 1-1/2 hours. If we get more of the same do you want to see them? If not, should we keep a list?

EPA Region 9

Dear EPA Region 9:

I've followed the Rosemont Copper project for a long time.

There are thousands of us who could write lengthy emails, rehashing the same facts that have been proven time and again.

But it's all been said, and you know the facts.

The costly and unnecessary delays are getting out of hand.

It's time to move forward with Rosemont. I urge you to help issue the Record of Decision without further delay.

Sincerely,

Dale MacDonald
